

Amendments to the claims:

Listing of Claims: The listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) A continuous feed injection unit, comprising:
 - a first hydraulic motor;
 - a second hydraulic motor;
 - cooperating continuous well string gripping chains connected to be driven by the first and second hydraulic motors;
 - a hydraulic power supply connected to provide pressurized fluid to the first and second hydraulic motors, and each of the first and second hydraulic motors being connected through respective first and second drain lines to a hydraulic fluid return to form an open loop hydraulic supply;
 - a control system for the hydraulic power supply; [[and]]
 - the control system for the hydraulic power supply having a motor speed control valve with at least a first and second operating configuration, the first operating configuration providing power fluid to the first and second hydraulic motors in parallel and the second operating configuration providing power fluid to the first and second hydraulic motors in series;
 - the control system for the hydraulic power supply incorporating a motor direction control valve through which the power fluid flows, the motor direction control valve being configured to reverse flow of power fluid through the first and second hydraulic motors; and
 - the continuous chains comprising a first continuous chain and a second continuous chain, the first continuous chain being driven by the first hydraulic motor and the second continuous chain being driven by the second hydraulic motor.
